In re: WSPY(AM), Geneva, Illinois
Facility Identification Number: 69700
Nelson Multimedia, Inc.
Request for Special Field Test Authority

Dear Counsel:

This is in reference to the request filed August 6, 2007, on behalf of Nelson Multimedia, Inc. (NMI), licensee of Station WSPY(AM), Geneva, Illinois. NMI seeks special field test authority ("SFTA") for operation of a test transmitter on 1650 kHz. In support of the request, NMI states that the requested facility is the same as was previously authorized, but that due to illness and hospitalization of the engineer, the planned measurements could not be completed.

Accordingly, the request for SFTA IS HEREBY GRANTED. Call Sign WS9XPY is assigned to the test station. Station WS9XPY may operate with the following facilities:

Frequency:	1650 kHz
Hours of operation:	Daytime only
Coordinates:	41° 34' 59" N, 88° 36' 05" W (NAD 1927)
Power:	Not to exceed 1 kilowatt
Antenna type:	Temporary vertical radiator with top-loading
Radiator height:	30.1°
Overall height:	15.2 meters (50')
Antenna efficiency:	256 mV/m/km/kW ¹
Ground system	60 equally-spaced, 38-meter radials

Transmissions shall consist of unmodulated carrier plus hourly station identification announcements. A report detailing the methodology employed and the results obtained must be submitted within sixty days following the conclusion of the experimental operation pursuant to 47 C.F.R. § 73.1515(c)(7). It will be necessary to reduce power or cease operation if complaints of interference are received. CGB must employ whatever means are necessary to protect persons having access to the site from radio frequency radiation in excess of FCC guidelines. See 47 CFR

¹ Millivolts per meter at one kilometer for one kilowatt input power.

Section 1.1310.

This special field test authority expires on **November 5, 2007**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a large initial "C" and a long horizontal stroke at the end.
